

Prime Concrete Developments

"The Experts in Concrete Sleepers for Retaining Walls"

ABOUT US:

Prime Concrete Developments are the industry leaders and largest sleeper manufacturer in Southeast Queensland.

Our structured processes along with our specially designed moulds are 100% guaranteed to improve the product quality in the way of negating hair line fractures and improving concrete strength resulting in an outstanding smooth finish and colour consistency in every individual concrete sleeper.

Incorporated in our systems, process and procedures are extensive Q & A processes that ensures and guarantees to supply all clients with a product that is inferior to no other and superior to all from manufacturing through to install.

ABOUT OUR PRODUCTS:

PCD's concrete sleepers are made to the highest Australian standards, the engineering specifications consist of 2 x N12 Steel Reo Reinforcement Bars and 40 Mpa concrete. Our custom concrete mix designs consistently surpass Australian standards with results of 55-60 MPa.

Our world class manufacturing processes, specially designed concrete mix and the support from the relationships we hold with our Suppliers ensures that we reach and surpass all necessary specifications required.
